

Longs Peak Hospital Foundation Impact Report | August 2018

UCHealth Longs Peak Hospital nurtures a real human connection, striving to improve lives and help those we serve find the ultimate freedom: the freedom to be exactly who they want to be. Being nimble and able to adapt quickly as a health care system sets UCHealth apart.

Longs Peak Hospital and the Longs Peak Hospital Foundation serve residents of greater Longmont, Carbon Valley and the surrounding area.

Medical leaders and staff are committed to serving our community for all their health care needs today and into the future. Longs Peak Hospital is equipped with the best technology possible and highly skilled care providers and staff. We are high-tech and high-touch.

Chief Medical Officer
Longs Peak Hospital

Diane Stow
Realtor
RE/MAX Alliance

A commitment to community health.

We are amazed by the welcome Longs Peak Hospital has received from Longmont, Fredrick, Firestone and Berthoud-area residents. Thank you! The Longs Peak Hospital Foundation is dedicated to improving the community through human connections. Our team shares your passion to make our community healthier and works directly with hospital and community leaders to ensure your charitable donations further patient care. One example is helping new moms thrive through our lactation education and support program.

Philanthropic support through the Longs Peak Hospital Foundation helps fill in gaps not covered by insurance, accelerates new advances and offers a meaningful way for grateful patients and families to express gratitude.

Because we care about community health and wellness, we are going beyond our hospital walls. Community health efforts, such as chronic-disease management programs and healthy-heart education, contribute to proactively keeping our region healthy. Already, we are reaching out to students in fourth and fifth grades through a pilot program called Healthy Hearts. Watch for more information about Healthy Hearts in the coming year. Contact me (Richmg@comcast.net) or foundation staff (lph-foundation@uchealth.org) if you'd like to invest in this incredible community health program. Thank you for your past and continued support.

—Rich Gordon, MD
Longs Peak Hospital Foundation
Board Chair

Longs Peak Hospital Foundation outcomes:

Provided patient assistance for

43 patients

in emergent need:

- New prescription glasses for two trauma patients.
- Temporary lodging for one patient with high needs.
- Four hotel stays for four families.
- Transportation for three families.
- Medical equipment for two families.
- Prescription assistance for three patients.
- Newborn clothing for three families.
- Portable crib and swaddling blankets for a drug-addicted baby to go home to a different and safer environment.
- Clothing for more than 25 patients so they could go home with dignity.

80 bike helmets distributed to children and adults during our first annual Bike Safety Day on July 2, 2018.

Teddy bears given to more than

350 pediatric patients.

THE GOAL

The Longs Peak Hospital Foundation's near-term focus is on raising funds to launch and coordinate community health programming for children and adults in the greater Longmont region.
